LABOR IN CALIFORNIA.

Correspondence of The N. Y. Tribune.
SAN FRANCISCO, Monday, Jan. 15, 1855.

I sympathize with the laborers who have recently been discharged in your City, as detailed in your pa-

per of the 20th of December.

One hundred thousand men, who are willing to handle the pick, the shovel, and the hoe, can find handle the pick, the shovel, and the hoe, can find more profitable employment in our mines this sesson, in addition to those now there, than can be found elsewhere on this continent. We are not the California of 1849. Our miners have good food and are well housed. Water companies enable miners to work profitably in the dry season. We have now churches, schools, families, and our laws are very well enforced. Our climate mild and healthy. Laborers may hire out to companies at any time for \$2 to \$2 50 per day, and often for far more. Thousands are making, who work on their own account, from \$4 to \$10 per day.

We have unbounded elements of prosperity, aside from the mines, which wait for productive industry to develop them. Will they come! If they do not they may do much worse. I left your City in February, 1849; have experienced all the "Lights and Sha" dows" of life here—am estisfied that it is the best country in the world for those who are steady, sober and industrious—and destitute of capital.

STATE MEDICAL SOCIETY.—A Convention of the

members:

James R. Wood, B. Fordyce Barker, Philander Stewart, G.
C. Monell, Alfred Weikins, Ebenerer Steel, Freeman Turtelot, Henry C. Gray, Luther Gutleau, A. L. Saunders, Marcona
Terry A. S. Case, John Coventry, Edson Carr, Anstin Flint,
John B. Gostas
Dr. Hornec A. Buttolph, of New Jersey, and Marshall Hall, of London, were elected Honorary Members of the Society.

CINSUS OF IOWA.—From a tabular statement of the census of the several counties in the State of the several counties in the State of the sector the year 1854, presented to the Senate by the Sector the year 1854, presented to the Senate by the Sector that year 1854, the sector that year 1854,

CANADA.

TORONTO, Tuesday, Feb. 6, 1855.

I have never expressed any doubt about the removal of the Seat of Government to this city next fall. The question is said still to be an open one; but the following order in Council shows that a majority of the Cabinet are in favor of the

"The Committee of Council recommend that the heads of Departments inform their respective clerks and employes that the [Seat of Government will, in all probability, he removed to Toronto during the ensuing autumn, under the alternate system which has existed since 1849."

The removal itself is I suspect, not so much

suing antume, under the alternate system which has existed since 1849."

The removal itself is, I suspect, not so much an open question, as is that which relates to what shall be done after the Government shall have been in Toronto four years; what shall be done in the fall of 1859; whether a permanent Seat of Government shall then be adopted, and if so, where shall it be, or whether the alternating system shall be adhered to. And it will be soon emough to decide that question when the time comes.

The failure of Lemesurier & Co., of Quebec, lumber merchants, for a large amount, has been announced. The precise amount of their liabilities, and means has not been made public. There is reason to fear a great deal of rottenness in the timber trade. The surprise is, that the failures have not been more, and that they did not occur sconer.

The difficulties of railway locaynetics among the

have not been more, and that they did not occur sooner.

The difficulties of railway locemetion among the snews of a Lower Canada winter, will now be fairly put to the test. Very recently, the journey from Montreal to Quebec consumed four days, and the train met fourteen accidents, of a trivial nature, however, no lives being lost. It is not likely, however, that there is anything to be learned which the experience of the Montreal and Portland Railroad has not settled already.

I have compiled from the Trade Returns, a list of the articles embraced in the schedule of the Reciprocity Treaty, imported into the Province in 1e53, showing the rates of duty paid thereon, the value of the articles, and the amount of the duty paid; a statement similar to that recently published by the Treasury Department at Washington.

\$443.977 18 1 Hereafter about one-eighth of our imports, in

Hereafter about one-eighth of our imports, in value, will be free of duty.

If we look to the other side of the question, we find that nearly all the exports of Canada, except ships, are included in the Reciprocity schedule. The same is true of Nova Scotia. Every article which that Province exports, with the single exception of ships, will go free into the United States. In 1853, that Province exported £277,000 worth of articles, which, if imported into the United States, would have paid duty. If the Treaty had been in operation. £247,000 of these exports would have paid oduty if imported into the United States—leaving £30,000 on which duty would have been paid.

Mr. Cauchon, the new Commissioner of Crown Lands, has bid farewell to the readers of the Journal de Quebe, which he founded in Dec. 1842, and of which he has ever since been editor and proprietor.

and of which he has ever since seen constant proprietor.

Mr. Secretary Cartier has appealed to his old constituents for reelection. It is not anticipated that any of the new Ministers will have any difficulty in securing their reelection.

Some few of the Annexationists, as I anticipated, have refused the Adjutant-General's invitation to resume their offices in the militia.

resume their offices in the militia.

Sad Affair in Charlestown.—The arrest of a dentist, Dr. Wetherbee, and his alleged paramour, on a crim, con, charps of Wednesday evening, caused great excitement in Charlestown. He has been a resident of their place for perhaps fifteen years: was first a subster of the Freewill Baptist Church, and has continued to be a sort of preacher, temperance lecturer, and anti-slavery orator, and is now a dentist. His wife is an estimable lady; but for a long time he and Miss Healey, the person arrested, have been intimate. She has been an occupant of his house, and when arrested was coming from his room. The complaint was made by the friends of the injured wife. The parties arrested were taken to Cambridge jail. Miss Bealey obtained bail, but last evening Dr. Wetherbee remained in jail.

Boston Post, 3th.

DOINGS IN THE LEGISLATURE.

ALBANT, Friday, Feb. 9, 1855.

The following is a resume of the doings of the Legislature for the sixth week of the present semion: BILLS NOTICED.

Relative to extrajudicial caths To provide for the better supervision and regulation of rail-

To prohibit the distilling of all kinds of grain.
To incorporate the New-York Metropolitan Gas-Light Com-

panies.

To abolish capital punishment.

To amend the charter of the village of Geneva.

To prevent impostures by proprietors and drivers of omnibuses and stages in all the cities in this State.

BILLS INTRODUCED.

To enable the Industrial Schools of the City of Brooklyn to participate in the distribution of the School Fund.

To legalize the official acts of O. Beebe, a Justice of the Pesca.

schein for the information of their stockholders.

To limit the divitends of Railread Companies, and to probible side Companies from contracting debts greater in amount than their capital.

To probibit bonds and mortgages being received by the Septimendeat of the Banking Department as a basis for banking.

To incorporate the Portchester Fire Department.

To continue the weighter to the collection of traces on non-readest hands have related to the contract of the series of the contract of the series.

Anthoristing a loan for the enlargement of the Eric, Oswaya, Cayana and Seneca Canals, and for the completion of the Senesses Valley and Black River Canals, and for the payment of certain Canal Revenue certificates, and for the payment of certain Canal Revenue certificates, and for the payment of certain Canal Revenue certificates, and for the payment of certain Canal Revenue certificates, and for the payment of the Courts, with regard to the Lemmon elave case, was under consideration, and the debate had thereon was doubly interesting, from the fact that it turned mainly toward the point of the necessity for returning the Hon. Wm. H. Seward to the U. S. Senate, as New York's first and truest champion of Freedom. At 12 o'clock, Tuesday, the lobbies were deasely crowded with spectators, and

The PRESIDENT, pursuant to a resolution hereotore adopted, and in accordance with law, amounced that the bour had arrived for the Senate to proceed to ballet for U. S. Senator, each Senator racing in his place as he named his candidate.

SOMINATIONS BY SENATORS.

WILLIAM H. SEWARD was nominated by Messra. Barnard, Bishop, Bradford, Butts, W. Clark, Crosby, Dickinson, Dortance, Field, Hopkins, Munroe, Pratt, Richards, Robertson, Sherrill, Walker, Williams, Yost, PRESTOR, DATE, LULIAMSNO WAS nominated by Messra. Barr, Danforth, Halsey, Hutchins, Walton.

WILLIAM F. ALLEN was nominated by Messra. Hitchcock and Lansing.

DASIEL ULLIAMSNO WAS nominated by Messra. The Senate then proceeded to the Lower Chamber, and shortly after return

ASSEMBLY.

ASSEMBLE.

BILLS INTRODUCED.

To amend the Charter of the Gas Light Company of the City
of New York.

To increase the salary of Police Justices in the City of Syra-

of New York.
To licritate the salary of Police Justices in the City of Syracise.
To licritate the salary of Police Justices in the City of Syracise.
To licritate the salary of Westfield, Chautanque Co.
To improve the supply and secure the use of the Croton Water in the City of New York.
To requisite the liability of Hetel Keepers.
Notice was given of a bill to regulate and define the powers of Coarts granting certificates of Naturalization.
BILLS FASSED THE SENATE AND SENT TO THE ASSEMBLY FOR CONCURRENCE.
In relation to the Califleon and Cochecton Turapike Co.
To change the names of Minors
THE UNITED STATES SENATORSHIP.
The resolution offered by Mr. PETTY under discussion at the close of last week, was taken up again on Monday, and debated up to the hour of adjournment.
On Theeday the debate was resumed, and continued up to 12 o'clock M., the time fixed for proceeding to elect a United States Senator for the term of six years from the 4th of March next. At that hour the House proceeded to nominate, each member raising in his place and naming his candidate—the result of which was as follows:

WILLIAM H. SEWARD WAS DOMINISTED by 90 members.
DANIEL S. DICKINSON WAS nominated by 12 members.
WASHINGTON HUNT WAS DOMINISTED by Members.

bers.

Washington Hunt was nominated by 9 members.

John A. Dix was nominated by 7 members.

Horatio Sermour, Jr., was nominated by 2 members.

HORATIO SEYMOUR, JR., was nominated by 2 members.

MILLARD FILLMORE was nominated by 4 members.

BENJAMIN F. BUTLER was nominated by 1 member.

ALERAT LESTER was nominated by 1 member.

GRIENE C. BEOSSON was nominated by 1 member.

OCDEN HOFFMAN was nominated by 1 member.

S. G. HAVENS was nominated by 1 member.

W. W. CAMPBELL was nominated by 1 member.

J. B. HOWELL was nominated by 1 member.

LUTHER WAITE was nominated by 1 member.

PRESTON KING was nominated by 1 member.

Two members, Mesers. Campbell, of Albany, and Stuyvesant, of New-York, were absent.

The SPEAKER declared the nomination of WILLIAM H. SEWARD, and the Senate was invited to the Assembly Chamber for the purpose of comparing nominations. The nomination of each House being read, they were found to agree, and the President of of the Senate declared the election of William H. Sewerd amid prolonged cheers by a very large andience.

The TEMPERANCE BILL.

Sewerd anid prolonged cheers by a very large stateence.

THE TEMPERANCE BILL.

The Act for the Suppression of Intemperance was reached on the general orders on Thursday, but without any action being taken, the Committee rose and
reported progress. A motion was then made to discharge the Committee of the Whole from its further
consideration, and that it be referred to a Select Committee, to be reported complete: and also that the
vote on its final passage be taken on Wednesday, the
21st inst. This motion elicited much opposition from
the enemies of the bill, and the House adjourned
without deciding the question.

On Saturday this motion was called up, and it was,
after some debate, adopted.

on Saturday this motor was caused up, and it was, after some debate, adopted.

Earthquake in Vinginia.—The Richmond Post states that a shock of an earthquake was sensibly fell on Friday, a few minutes before 3 o'clock, in Clarks ville. Charlotte, Prince Edward and Halifax. At Clarksville there was a rumbling, rattling sound, which resembled somewhat the noise made by a coseh in rapid motion. Crockery standing on the table was visibly shaken. At Wyliesburg, the houses were shaken, and one gentieman was waked up by the severe noise. Alarmed by the cracking sound of his house, he jumped out of bed considerably frightened. In Prince Edward, we learn, the shock was still greater.

THE Law AND SAUNDERS MUSERIS.—The National Intelligencer has been informed that "a wealthy gentleman of New York, who made a large purchase of United States muskets, has established a factory, and is engaged in altering theminto rifies, by groov, and is engaged in altering theminto rifies, by groov, and is engaged in altering theminto rifies, by groov ing the barrels and changing the breech and lock, so as to allow the arm to be loaded at the breach, and that with such alteration the experiment has proved the arm to be equal to the Minie rifie. We learn, too, that many of the muskets thus altered, at a cost of less than two deliars, have been sold at from fifteen te twenty dollars each, the vender realizing a large profit by the alteration and sale."

THE ROCHESTER MISTERY.—The disappearance of Miss Emma Moore from Rochester, is still unexplained. The Sheriff of Monroe County has offered a reward of a thousand dollars for the recevery of the bedy of Miss M., dead or alive, and a Committee appointed by the citizens at the Town Mosting have resumed their meetings, and talk of another public demonstration. A deep interest exists upon the subject throughout the community.

CHARGE OF NEGRO-STEALING

The penalty attached to this offense is "not k" "than four years imprisonment, with labor, nor me" "than ten years."

A NEW EXCAVATING AND DREDGING MACHINE .-A New Excavating and Dreeging Machine.—
A year ago or more we described a new Excavator
invented by Mr. Taggart, of Roxbary, which, as it appeared in the model, seemed to promise very valuable results. The invention has now been perfected
and patented, and working machines have been constructed and thoroughly tested. A correspondent has
furnished us with the following account of a trial recently made of one of the machines:

[Boston Traveller.

"Unfortunately, the day selected for anhibition was exceedingly storiny, and the driving snow, by accumulating in the unprotected goaring, at times perceptibly impaired that uniformity, ease, and grace of motion, said by many present to have been witnessed at former but more private trials.

"Owing to the inclemency of the weather, the company of spectators present was comparatively small, which deficiency, however, was abundantly supplied in intelligence and superior ability to comprehend and appreciate the mert of such devices. Among, the most important persons observed was a delegation, as I was informed, from the Engineering and Surveying Corps of Boaten harbor, several capitalists and distinguished machinists of Rozbury and its neighboring cities, together with the inventor and several proprietors of the machine. The snechanism of the machine is extremely simple, and consists of two opposing accops, with their adjacent levers and vertical vibrating boom—a massive projecting crans, sustaining the executive parts, and in its turn supported by a secendary platform which sustains the machinery, eteam-boiler, engine, d.c., and revolves upon a stationary platform, which rests upon four trailing wheels. The executive parts are compensed of wrought from, and are massive and expicient. They weigh nearly four tune, and remove, when filled to their utmost capacity, about ninety cubis fact, or four-and a-half tune of earth at each application. They are compelled to pessentite by the force of gravity, laided, however, when necessary, by the entire weight of the machine,) and ten grapp by power applied over a double-run of pulleys; consequently find and the description of earthy material.

"The spot selected for exhibition was that on which the machine was built. This land to grapp by power applied over a double-run of pulleys; consequently, and when free from freet of from four or and a strong man. But to the gigantic grappling power of this machine, with the plant of the freet of a strong man. But to the gigantic grap

nated.

The work on a part of the Western Division of the Eric Canal is temporarily suspended on account of the Gepth of snow.

The "importance of one vote" has calden been more strikingly illustrated than in the recent election of U. S. Senator. If the Rev. Mr. Goodwin had not cast a ballot for Mr. Ullman, he would not have been heard of in the contest!
